Loss of hands or feet means complete severance at or above the wrists or ankle joints without subsequent reattachment. Loss of sight, speech, or hearing means the entire and irrecoverable loss of sight, speech, or hearing, which cannot be corrected by medical or surgical treatment or by artificial means. Loss of thumb and index finger means complete severance of both the thumb and the index finger at or above the metacarpophalangeal joints without subsequent reattachment.

A surgically reattached hand, foot, thumb or index finger will be deemed a permanent loss if, 12 months after reattachment, the limb has regained less than 50% of its normal function. The percentage of normal function must be certified by a licensed physician.

### General Exclusions

The insurance provides limited coverage. This means we will provide benefits only when the loss results directly, and independently from all other causes, from an accidental bodily injury which was unintended, unexpected and unforeseen. The bodily injury must be evidenced by a visible contusion or wound, except in the case of accidental drowning. The bodily injury must be the sole cause of the loss. The injury and loss must occur while coverage is in force. The loss must occur within 90 days after the date of the accidental injury. In no event will we pay a benefit where the loss or injury is caused directly or indirectly by, results from, or there is contribution from, any of the following: (1) self-inflicted injury or self destruction, whether sane or insane; (2) suicide or attempted suicide, whether sane or insane; (3) the insured's participation in or attempt to commit a crime, assault or felony; (4) bodily or mental infirmity, illness or disease; (5) the use of alcohol, drugs, medications, poisons, gases, fumes or other substances taken, absorbed, inhaled, ingested or injected, unless taken upon the advice of a licensed physician in the verifiable prescribed manner and dosage; (6) motor vehicle collision or accident where you are the operator of the motor vehicle and the insured's blood alcohol level meets or exceeds the level at which intoxication is defined in the state where the collision or accident occurred, regardless of the outcome of any legal proceedings connected thereto; (7) infection, other than infection occurring simultaneously with, and as a direct result of, the accidental injury; (8) medical or surgical treatment or diagnostic procedures or any resulting complications; (9) travel in or descent from any aircraft, except as a fare-paying passenger on a regularly scheduled commercial flight on a licensed passenger aircraft carrier; (10) war or any act of war, whether declared or undeclared; (11) repetitive stress syndromes including but not limited to rotator cuff syndrome, bursitis, tendonitis, carpal tunnel syndrome, ulnar nerve syndrome, stress fractures, neuropathy, epicondylitis or neuritis.
