Save that Cash!

Hey you! Yeah, I'm talking to you! I see you just got some money for that birthday you just celebrated. What are you going to do with it? Why don't you just go blow it on some candy from the store? Do you think you can afford spending it on that video game that just came out?"

We all have that voice in the back of our head telling us to spend, spend, spend that money! Keep in mind anyone can just go out and spend money, but it takes a special, smart individual to put money away and use it wisely. You don't want to be in a situation where you don't have ANY money at all... Always remember that it's not about spending but handling your money properly.

LITTLE PURCHASES

Looking to buy just a little something, something to make your day a little brighter? The more you save, the more you can do.

BIGGER TICKET ITEMS

Interested in getting that computer game or bike even? These items cost a lot more money so you have to keep saving! Every little bit counts toward your goal!

GIVING BACK

That warm, fuzzy feeling you get when you donate your money can keep on coming! You just have to keep saving to give back. You can't give back if you have no money of your own. Right?

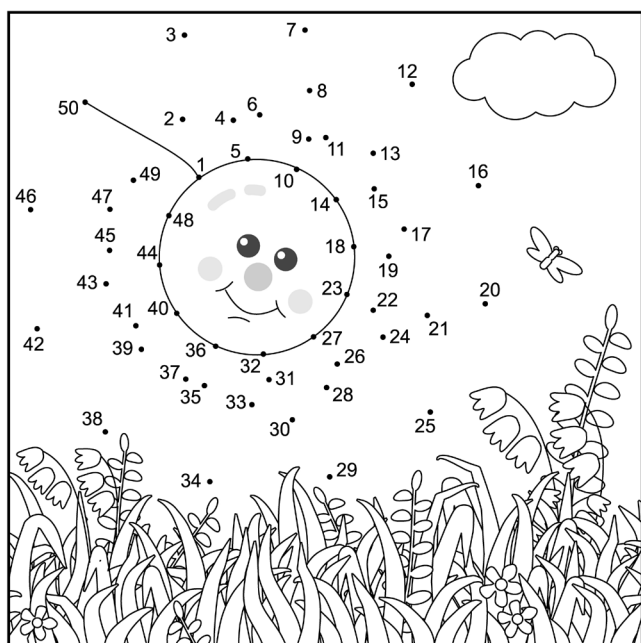

EMERGENCIES

Uh-oh! Someone stole your favorite Nike jacket at school... If you have a history of carelessness, your parents may not be so forgiving and expect you to pay for another one. You may have a problem if you don't have the money set aside for emergencies like this.

Connect the dots
